## REMARKS

The figures of births and deaths shown in this statement for week ending the 28th January 1956 relate to 162 towns with an estimated population of 22,546 thousands. The total number of towns is 313 and their population is 41,203 thousands. Thus 52% of the total number of towns representing 55% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 12,134 and 5,063 representing birth and death rates of 28.0 and 11.7 per thousand of population respectively.

(a) *States (Parts A and C).*—The data here relate to 121 towns with an estimated population of 16,559 thousands. Information about Ajmer, Bihar, Delhi, Madras and West Bengal could not be included. The total number of towns is 251 and their population is 33,402 thousands. Thus 48% of the total number of towns representing 50% of the total population is covered. The number of births

and deaths recorded in these towns were 9,782 and 4,194 representing birth rates and death rates of 30.7 and 13.2 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B).*—The data here relate to 41 towns with an estimated population of 5,987 thousands. The total number of towns is 62 and their population is 7,801 thousands. Thus 66% of the total number of towns representing 77% of the total population is covered. The number of births and deaths recorded in these towns were 2,352 and 869 representing birth and death rates of 20.4 and 7.5 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
